NOTES FROM JACOB

I was deeply moved on Sunday morning by the beauty with which you sang “Show Us Christ.” Your unison singing was some of the best I’ve heard with our choir and you fixed so many of the little details that we worked on in rehearsal. More than all of these, you brilliantly communicated the text. The congregation didn’t have to read the words off the screen to understand you.

My prayer as we move towards Holy Week is that we will do our best to communicate the text of our anthems, especially for “In His Own Words,” which highlights Jesus’s own words to us. While many of these are well known, I’m convinced that there will be people at our Maundy Thursday presentation that will have never heard them before. As the text of “Show Us Christ” says so well, as it echo’s Psalm 119, let’s ask God to plant his Word down deep in us. I need these words and so do you!
